About Groupe Gorgé

Founded in 1990, Groupe Gorgé is an independent group that specializes in high-tech industries. Today, the Group is active in the fields of security and protection in extreme environments, as well as in the 3D printing sector. In its more than twenty-five year history, Groupe Gorgé has always developed and driven the latest technological and industrial innovations.

Smart Safety Systems:

Developing innovative, complete technological solutions for complex tasks in hostile and challenging environments.

Protection of High-Risk Installations:

Protecting people and providing active and passive protection of installations for the energy markets and the industrial and tertiary sectors in France. Providing maintenance for these protection systems.

3D printing:

Enabling major industry players to find new routes to successful innovation and production processes by providing systems, 3D printers and new premium materials.

In 2016, the Group reported revenue of €281.2 million. It is backed by 1,800 employees and operations in over ten countries.

Groupe Gorgé and Prezioso Linjebygg (Altrad group) partner in the nuclear field and announce their first award

Baumert, subsidiary of Vigians, new brand of Groupe Gorgé Protection of High-risk Installations, and Prezioso Linjebygg, subsidiary of Altrad group, announce the signature of a Memorandum of Understanding for a joint project to offer a full set of passive fire protection solutions for nuclear environments.

Drawing on their deep experience and expertise in the nuclear industry, Baumert and Prezioso Linjebygg will join forces to offer their customers in France and abroad a turnkey solution that encompasses engineering, certification, supply, installation and maintenance of solutions that protect trunkways and ventilation ducts.

This balanced collaboration will enhance each partner's expertise and offer their customers reliable, competitive and innovative solutions. Baumert and Prezioso Linjebygg will bring their technical expertise and renowned complementary technological innovations. They will bring together their project management competencies along with their robust resources in assembly teams that are qualified in the nuclear industry.

Construction programs for nuclear plants, as well as compliance requirements and the maintenance of active nuclear facilities are an important growth driver for the nuclear industry. The markets identified for the partnership cover all these operations and are valued at several tens of millions of euros.

Groupe Gorgé and Prezioso Linjebygg (Altrad group) awarded a first contract of close to €20 million euros

Baumert, subsidiary of Groupe Gorgé, and Prezioso Linjebygg, subsidiary of Altrad group, have been awarded a contract of close to €20 million euros in the nuclear field. This contract covers the qualification, supply and installation of cable-trays wrapping for a third generation nuclear power plant.

A major contract which marks the first success of Baumert - Prezioso Linjebygg partnership which aims at offering turnkey passive fire protection solutions to protect cable-trays and ventilation ducts in nuclear environments.

As part of the contract, more than 6,000 linear meters of different technical solutions addressing demanding fire requirements will be supplied and installed.

This contract represents close to €10 million for Groupe Gorgé and will mainly be executed in 2018.

About PREZIOSO Linjebygg

PREZIOSO Linjebygg, a subsidiary of the ALTRAD Group, is an international leader on the industrial services market in the energy production sectors, particularly nuclear and Oil & Gas. The Group works on all types of nuclear sites and infrastructure. It designs and develops integrated service solutions on the market of new construction and maintenance in order to help extend the life of its customers' facilities by providing a broad range of services: inspection, maintenance, repair of structures, cold repair, surface treatment, sealing, passive fire protection, access and confinement methods, cleaning and decontamination, integrity of installations.

Disclaimer

GROUPE GORGÉ's press releases may contain forward-looking statements regarding GROUPE GORGÉ's targets. These forward-looking statements reflect GROUPE GORGÉ'S current expectations. Such forward-looking statements and targets depend on known and unknown risks, uncertainties and other factors that could cause actual results, performance or events to differ significantly from those anticipated herein. The risks and uncertainties that could affect the Group's future ability to achieve its targets include, in addition to those indicated in the press release: the strength of competition; the development of markets in which the Group operates and notably the 3D printing division; currency fluctuations; obtaining the export authorizations that may be required for certain activities; control of costs and expenses; changes in tax legislation, laws, regulations or their enforcement; our ability to successfully keep pace with technological advances; our ability to attract and retain qualified personnel and key staff; the evolution, interpretation and uniform application and enforcement of International Financial Reporting Standards (IFRS) according to which we prepare our financial statements; manufacturing and supply chain bottlenecks; the performance of our business partners (subcontractors, agents, suppliers, etc.). Some of these risk factors are set forth and detailed in our Document de Référence (Registration Document including the annual financial report filed with the French Autorité des Marchés Financiers), available on our website www.groupe-gorge.com. This list of risks, uncertainties and other factors is not limitative. Other unanticipated, unknown or unforeseeable factors, such as changes in the economic situation or financial markets, could also have a significant adverse effect on the achievement of our targets.

This press release and the information it contains do not constitute an offer to sell or to subscribe, or a solicitation to purchase or subscribe shares or securities in GROUPE GORGÉ or in its listed subsidiaries in any country whatsoever.
